

Fellow Supervision Policy
Sleep Medicine
SAUSHEC
DECEMBER 14, 2012

1. The clinic supervising faculty must physically see and evaluate all new patients seen by sleep medicine fellows. The supervising staff will interview and/or examine follow up patient at their discretion, the fellow's request, or the patient's request. The supervising faculty must review and co-sign all encounters.
2. A supervising faculty must review all fellows' procedure interpretations to include polysomnography, MSLT, MWT and actigraphy. The supervising faculty must co-sign all encounters for procedures.
3. The supervising faculty must physically see and evaluate all new in-patients seen by the sleep medicine fellows. The faculty should enter a brief note concurring with the assessment and plan and generate a co-signature on all inpatient consults.
