Skin tag removal	2		3		3

Note: The program will document appropriate experience/competency for individual house staff members with level 2 or 3.

These aspects of supervision are in addition to those specified in the individual residency program statement, the Professional Staff Rules and Regulations, and other applicable policies. The above is not designed to be an exhaustive list of all procedures performed by residents in this program. Procedures which are similar but not identical to those listed may be performed with the level of supervision specified for the like procedure.
